

Hello... Brad Moore here. I am one of the Liberty BASIC Newsletter Editors (that makes me an author too, I guess). I also maintain (well sort of) a couple websites that are Liberty BASIC specific. The primary one is [Liberty Basic Connection](http://libconnection.copiasystems.com). I am currently migrating material from the old [lb-connection](http://lb-connection.com) website to the new one.

The new site features some neat things, such as the entire **Beginning Programming Series** in ZIP file format, the **Simulations with LB** article which includes the famous **WORBLER** game as well as the amazing **Merrel the Magician** who will predict what card you have chosen using LB Magic! Visit today!

<http://lbconnection.copiasystems.com>

You are invited to leave comments and/or ask questions via the **discussion** feature:
