Slideshow - Media Player Challenge

Here are the guidelines.

Rules:

- Starts Friday, October 12, 2007.
- Ends Sunday night, October 21.
- Entries should be listed at the bottom of this page.
- Program must allow user to select a MIDI file with filedialog, which will play during the slideshow.
- Program must allow user to select an image with filedialog.
- Program MUST use **FILES** command to extract the names of all image files residing in the same folder as the original image file chosen by the user.
- Program must display all image files in folder, using a timer.
- MIDI file must play during slideshow.
- MIDI file should be stopped and all images unloaded when program closes.
- Forum members will vote for their favorite program and the author will have his name added to the hall of fame on the Wiki Contest page. http://basic.wikispaces.com/Contests

Nice extras:

- Allow user to set interval for slides -- slow, medium, fast, etc.
- Allow user to pause slideshow.
- Allow user to restart slideshow.
- Allow user to page through slides manually with forward/back buttons.
- Allow user to mute music.
- Center images in graphicbox. (Hint: http://babek.info/libertybasicfiles/lbnews/nl100/dim.htm)
- Allow images other than bitmaps. You can use jpeg DLL or another image loading DLL to do this. http://alycesrestaurant.com/dll.htm#jpg

To create a page for your entry, edit this page and type a name in double brackets like this:
[[My Program Name]]
Save the editing of this page, then click the link for your new program page. Go to the page and edit it to add your code.
