

Hello Wikiworld !

- This will, hopefully, be my personal space at basic.wikispaces

if i can figure out how to connect all the dots.

- The process of making a link to a page that doesn't exist yet as a

way to create the new space seems totally backward to me.

- Does anyone else think so, or am alone in this?

If i can get this space to actually appear on the basic member pages then i will be inclined to fill it out a bit more.

- Alright.. we're up and running.
- Can we talk about non-LB stuff on our own page?

First off a few words about the LB community.

It's excellent!

- Alyce - 8000 posts and still going strong! Whenever i see one from the lady in the long

blue dress, i know i'm getting top notch info. oh and BTW, best avatar of them all. :-)

- Janet - I think Alyce must have an alarm on her machine telling her when you log-on to the

conforums. What else could explain how often she beats you to the punch when someone needs an answer / help? (LOL)

- Grahame - Thanks so much for all your help on the boards... and your entrap wizard is the

best LB solution to a puzzle i've seen. Congratz! I have been wondering about Libby lately and if Entrap would make a nice addition to its game bundle. What is involved in making it Libby-compatible?

- Stephan Pendl - Congratulations on your promotion to Board Moderator on the conforums.

Your ability to help others on such a wide variety of programming projects is impressive!
